Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On May 1, 2023 (the "Effective Date"), First Bancshares of Texas, Inc. ("First Bancshares") was merged with and into Prosperity Bancshares, Inc. ("Prosperity"), with Prosperity as the surviving entity, pursuant to the terms and conditions in the Agreement and Plan of Reorganization (the "Merger Agreement"), dated October 10, 2022, by and between Prosperity and First Bancshares.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ Pursuant to the Merger Agreement, each share of First Bancshares capital stock outstanding immediately prior to the Effective Date was canceled and converted into the right to receive 0.2118 shares of Prosperity common stock and \$5.41 cash per share. In addition, cash was paid for any fractional share interests at a rate of \$61.02 per fractional Prosperity common share.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ For federal income tax purposes, the aggregate tax basis of the Prosperity common shares received by First Bancshares shareholders as a result of the merger (excluding any fractional share interest deemed received & redeemed for cash) will be the same as the aggregate tax basis of the First Bancshares shares surrendered in exchange therefor, reduced by the amount of cash received on the exchange, & increased by the amount of any gain recognized upon the exchange. A former First Bancshares shareholder must allocate the tax basis so calculated across the total number of the shareholder's new Prosperity common shares received in the merger. By doing this allocation, a tax basis per share can be computed. The actual tax basis will differ with respect to each separate former First Bancshares shareholder &, additionally, tax basis may differ with respect to separate & distinct blocks of common shares owned by any former First Bancshares shareholder. To the extent that a First Bancshares shareholder received cash in lieu of a fractional Prosperity common share, a portion of the total tax basis must be allocated to the fractional share & such fractional share will be deemed to be received and then exchanged for cash. The holding period of any shares of Prosperity common stock received by First Bancshares shareholders in the merger generally will include the holding period of the shares of First Bancshares common stock exchanged for such Prosperity common stock.

Part II Organizational Action (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶
The merger of First Bancshares into Prosperity on May 1, 2023 qualifies as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended. In general, the income tax consequences to the former First Bancshares shareholders are determined under the Internal Revenue Code sections 354, 356, 358 and 1221.

18 Can any resulting loss be recognized? ▶ First Bancshares shareholders generally will not recognize a loss for U.S. federal income tax purposes by reason of the merger, except with respect to cash received in lieu of a fractional share of Prosperity common stock.
If a First Bancshares shareholder receives cash in lieu of a fractional share of Prosperity common stock, the First Bancshares shareholder will be treated as having received a fractional share of Prosperity common stock pursuant to the merger and then as having exchanged the fractional share of Prosperity common stock for cash in a redemption by Prosperity. As a result, the First Bancshares shareholder generally will recognize gain or loss equal to the difference between the amount of cash received and the First Bancshares shareholder's basis in the fractional share of Prosperity common stock as set forth on line 16 above. This gain or loss generally will be capital gain or loss, and will be long-term capital gain or loss if, as of the Effective Date, the First Bancshares shareholder's holding period with respect to the fractional share (including the holding period of the First Bancshares common stock surrendered therefor) exceeds one year. Special rules apply to First Bancshares shareholders who received their First Bancshares common shares through the exercise of an employee stock option, through a tax qualified retirement plan or otherwise as compensation, and such First Bancshares shareholders are instructed to consult their own tax advisors.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶
The merger became effective on May 1, 2023; therefore, the reportable tax year is 2023.
