HOUSTON, October 23, 2024. Prosperity Bancshares, Inc.[®] (NYSE: PB), the parent company of Prosperity Bank[®] (collectively, “Prosperity”), reported net income of \$127.3 million for the quarter ended September 30, 2024 compared with \$112.2 million for the same period in 2023. Net income per diluted common share was \$1.34 for the quarter ended September 30, 2024 compared with \$1.20 for the same period in 2023. The annualized return on third quarter average assets was 1.28%. Additionally, deposits increased \$154.5 million and loans increased \$60.0 million during the third quarter of 2024. (“Lone Star”) merged with Prosperity Bancshares and Lone Star State Bank of West Texas (“Lone Star Bank”) merged with Prosperity Bank (collectively, the “LSSB Merger”).

“I am pleased to announce that the Board of Directors approved increasing the fourth quarter 2024 dividend to \$0.58 per share from \$0.56 per share that was paid in the prior four quarters. The increase reflects the continued confidence the Board has in our company and our markets. (1) Refer to the “Notes to Selected Financial Data” at the end of this Earnings Release for a reconciliation of this non-GAAP financial measure to the nearest GAAP financial measure.

“We continue to share our success with our shareholders through the payment of dividends and opportunistic stock repurchases, while also continuing to grow our capital. Our tangible capital increased \$218 million from September 30, 2023, to September 30, 2024. This is the amount Prosperity retained after paying \$212 million in dividends and repurchasing \$75 million of our common stock during this period, reflecting Prosperity’s stable earnings. Further, Prosperity’s tangible book value per share has a compound annual growth rate of 11% for the last 21 years, or since 2003,” added Zalman.

“The \$2.4 trillion Texas economy is the eighth-largest among the nations of the world, larger than Russia, Canada and Italy, among others. An estimated 1,000 to 1,300 people move to Texas every day. Based on US Census Bureau data, in 2023, 473,453 people moved to Texas, which equates to approximately 40,000 per month or 1,300 per day,” added Zalman.

“The Texas and Oklahoma economies continue to benefit from companies relocating from states with higher taxes and more regulation. This, combined with people moving to the states, requires additional housing and infrastructure, a driver for loans and increased business opportunities. We believe our bank is located in two of the best states we can be for future growth and continued prosperity,” concluded Zalman.

Results of Operations for the Three Months Ended September 30, 2024

For the three months ended September 30, 2024, net income was \$127.3 million⁽²⁾ or \$1.34 per diluted common share compared with \$112.2 million⁽³⁾ or \$1.20 per diluted common share for the same period in 2023, an increase of \$15.1 million or 13.4%. The change was primarily due to an increase in net interest income, partially offset by an increase in noninterest expense related to three months of Lone Star Bank operations. For the three months ended September 30, 2024, net income was \$127.3 million⁽²⁾ or \$1.34 per diluted common share compared with \$111.6 million⁽⁴⁾ or \$1.17 per diluted common share for the three months ended June 30, 2024, an increase of \$15.7 million or 14.0%. The change was primarily due to higher net interest income, lower merger related provision for credit losses and lower merger related expenses, partially offset by lower net gain on sale or write-up of securities. Annualized returns on average assets, average common equity and average tangible common equity for the three months ended September 30, 2024 were 1.28%, 6.93% and 13.50%⁽¹⁾, respectively. The change was primarily due to an increase in the average balances and average rates on loans, an increase in the average balances on federal funds sold and other earning assets and a decrease in the average balances and rate on other borrowings, partially offset by a decrease in the average balances on investment securities and an increase in the average balances and rates on interest-bearing deposits. Net interest income before provision for credit losses increased \$2.9 million or 1.1% to \$261.7 million for the three months ended September 30, 2024 compared with \$258.8 million for the three months ended June 30, 2024.

The net interest margin on a tax equivalent basis was 2.95% for the three months ended September 30, 2024 compared with 2.72% for the same period in 2023 and 2.94% for the three months ended June 30, 2024. The year-to-year change was primarily due to an increase in the average balances and average rates on loans, an increase in the average balances on federal funds sold and other earning assets and a decrease in the average balances and rate on other borrowings, partially offset by a decrease in the average balances on investment securities and an increase in the average balances and rates on interest-bearing deposits.

Noninterest income was \$41.1 million for the three months ended September 30, 2024 compared \$38.7 million for the same period in 2023, an increase of \$2.4 million or 6.1%. The change was primarily due to an increase in the net gain (loss) on sale or write-down of assets, partially offset by a decrease in other noninterest income. Noninterest income was \$41.1 million for the three months ended September 30, 2024 compared with \$46.0 million for the three months ended June 30, 2024, a decrease of \$4.9 million or 10.7%. The change was primarily due to lower net gain on sale or write-up of securities, partially offset by an increase in net gain (loss) on sale or write-down of assets.

Noninterest expense was \$140.3 million for the three months ended September 30, 2024 compared with \$152.8 million for the three months ended June 30, 2024, a decrease of \$12.5 million or 8.2%, primarily due to a decrease in FDIC special assessment, a decrease in merger related expenses and a decrease in other noninterest expense.

The change was primarily due to an increase in the average balances and average rates on loans, an increase in the average balances and average rates on federal funds sold and other earning assets, an increase in loan discount accretion and a decrease in the average rates on other borrowings, partially offset by a decrease in the average balances on investment securities and an increase in the average balances and rates on interest-bearing deposits.

The net interest margin on a tax equivalent basis for the nine months ended September 30, 2024 was 2.86% compared with 2.79% for the same period in 2023. The change was primarily due to an increase in the average balances and average rates on loans, an increase in the average balances and average rates on federal funds sold and other earning assets, an increase in loan discount accretion and a decrease in the average rates on other borrowings, partially offset by a decrease in the average balances on investment securities and an increase in the average balances and rates on interest-bearing deposits. NOTES TO SELECTED FINANCIAL DATA

Prosperity's management uses certain non-GAAP (generally accepted accounting principles) financial measures to evaluate its performance. Specifically, for internal planning and forecasting purposes, Prosperity reviews each of diluted earnings per share, return on average assets, return on average common equity, and return on average tangible common equity, in each case excluding merger related provision for credit losses, net of tax, merger related expenses, net of tax, FDIC special assessment, net of tax, and net gain on sale or write-up of securities, net of tax; return on average tangible common equity; tangible book value per share; the tangible equity to tangible assets ratio; allowance for credit losses to total loans excluding Warehouse Purchase Program loans; the efficiency ratio, excluding net gains and losses on the sale, write-down or write-up of assets and securities; and the efficiency ratio, excluding net gains and losses on the sale, write-down or write-up of assets and securities, merger related expenses and FDIC special assessment. In addition, due to the application of purchase accounting, Prosperity uses certain non-GAAP financial measures and ratios that exclude the impact of these items to evaluate its allowance for credit losses to total loans (excluding Warehouse Purchase Program loans). Prosperity has included information below relating to these non-GAAP financial measures for the applicable periods presented.
