- We use the daily balance method to calculate the interest on the account. This method applies a daily periodic rate to the principal in the account each day. Interest will be compounded and credited to the account monthly. The interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on the account. If you close your account before the interest is credited, you will receive the accrued interest. For the deposit of non-cash items, interest begins to accrue no later than the business day we receive credit for the item.
